

CP-ANW-GS8

8 Port 10/100/1000Mbps Ethernet Switch

- Follows IEEE802.3, IEEE802.3u, IEEE802.3ab Ethernet standard
- Support full/half duplex mode, support IEEE802.3X standard traffic control
- Under the online speed, support 9216 byte Jumbo Frame
- Support IEEE 802.1x channel control protocol
- Provide 8 adaptive RJ45 port, Support 10/100/1000Mbps Negative Link Velocity
- Provide up to 16Gbps bandwidth and Non-blocking line speed forward
- Provide LED indicators realize simple work statement reminder and trouble clearing
- Fanless design realize saving energy and environment protection

System Overview

As most of the CP PLUS products have been integrated with the Power of Ethernet technology which makes troubleshooting easier in case any errors occur. This can be done with the help of a PoE Switch makes increases reliability rapidly.

Functions

Better Connectivity

This PoE Switch has designed for outstanding power with flexible placement for better and advanced connectivity between network devices.

CP-ANW-GS8

8 Port 10/100/1000Mbps Ethernet Switch

Functions

Switching Performance

This PoE Switch offers the forwarding capacity to simultaneously process traffic on all ports at line rate without any packet loss.

RJ45 Connector

The Registered Jack 45 is the ubiquitous ethernet style data port that is found on switches, routers, and network cards. The RJ45 style connectors and ports are so commonly used that they have become the primary type of port to be used for ethernet networking. It looks similar to a telephone jack, but is slightly wider.

6KV Surge Protection

6kv is an internal electrical wiring standard which means that when large currents enter the device, the clamping voltage increases as well, so there will be a large amount of destructive energy getting passed through the 6kv protection. The 6kv surge protection is a feature in this PoE Switch that was designed to protect all the connected electrical devices from voltage spikes.

About CP PLUS

The brand that is on its way to lead the world when it comes to the security and surveillance industry, CP PLUS, keeps bombarding the market with the most reliable range of products that have been designed carefully and methodically to automate the whole surveillance and security process, no matter how big your premises are.

It was the initiative to help the public in the area where they are the most vulnerable and to empower the sense of safety in our hearts that had conceptualized CP PLUS. And embarking on its mission to make the world a safer and more secure place has taken the brand's journey to unprecedented levels even when compared to international competitors.

CP-ANW-GS8

8 Port 10/100/1000Mbps Ethernet Switch

Feature	Specification
Network Ports	8x10/100/1000Mbps, RJ45 port
Transmission Rate	10 or 100Mbps half duplex,100/1000Mbps full duplex Network port: 100BASE-Tor 1000BASE-TX Ethernet RJ-45port
MAC Address List	4K
Performance	Frames filter and transfer rate: 10Mport maximum 14,880pps 100Mport maximum 148,809pps 1000Mport maximum 148,8009pps
Network protocol and standard	IEEE802.3 Ethernet standard IEEE802.3u Fast Ethernet standard IEEE802.3ab Gigabit Ethernet standards IEEE802.3x Full-duplex Ethernet data link layers
Power Source	Input power: 100-240V,50/60Hz , Output power: 12VDC ,0.5A
LEDs Indicator	Power, Each port: LINK/ACT
Operating Temperature	0°~40°C(32°~104°F)
Storage Temperature	-40°C~70°C(-104°~158°F)
Storage Humidity	5%~90%(Non-condensing)
Humidity	10%~90%(Non-condensing)
Dimensions	125mm (L) x 75mm (W) x 27mm(H)
Weight	0.45kg
