

Email Configuration setup in Indigo DVR

How to do Email Configuration?

Email service is one of best feature in **CP Plus DVR**. We will get the Notification on our Email Address at any event occur like Motion Detect, Video Loss, Camera Masking, Disk Error Etc.

We can check previous recording of DVR through DVR Web Access on Computer System.

- Open DVR on Internet Explorer through IP.
- Login with Admin Account.
- Click on **Setup**
- In **Setup** Option, please go for **Network** Tab and then Click on **EMAIL**. See Figure 1

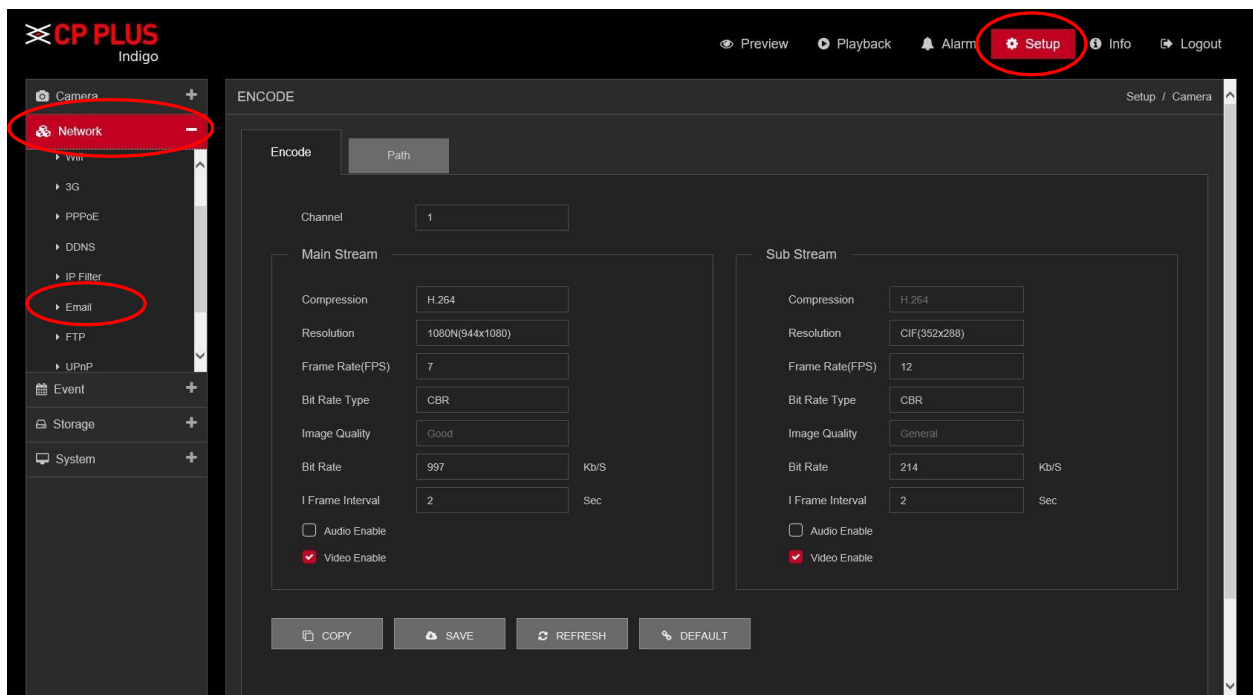

Figure 1

- The email interface is shown as in Figure 2.

Figure 2

- Put the All information according to Email Account.
- Now click on save.
- Please refer to the following sheet for detailed information.

Parameter	Function
Enable	Please check the box here to enable email function.
SMTP Server	Input server address and then enable this function.
Port	Default value is 25. You can modify it if necessary.
User Name	The user name of the sender email account.
Password	The password of sender email account.
Sender	Sender email address.
Subject	Input email subject here.
Receiver	Input receiver email address here.

Now enable Send Email option in Motion Detect, or in other Abnormal Events

- In **Setup** Option, go for **EVENT** at Right side window. See figure 3.

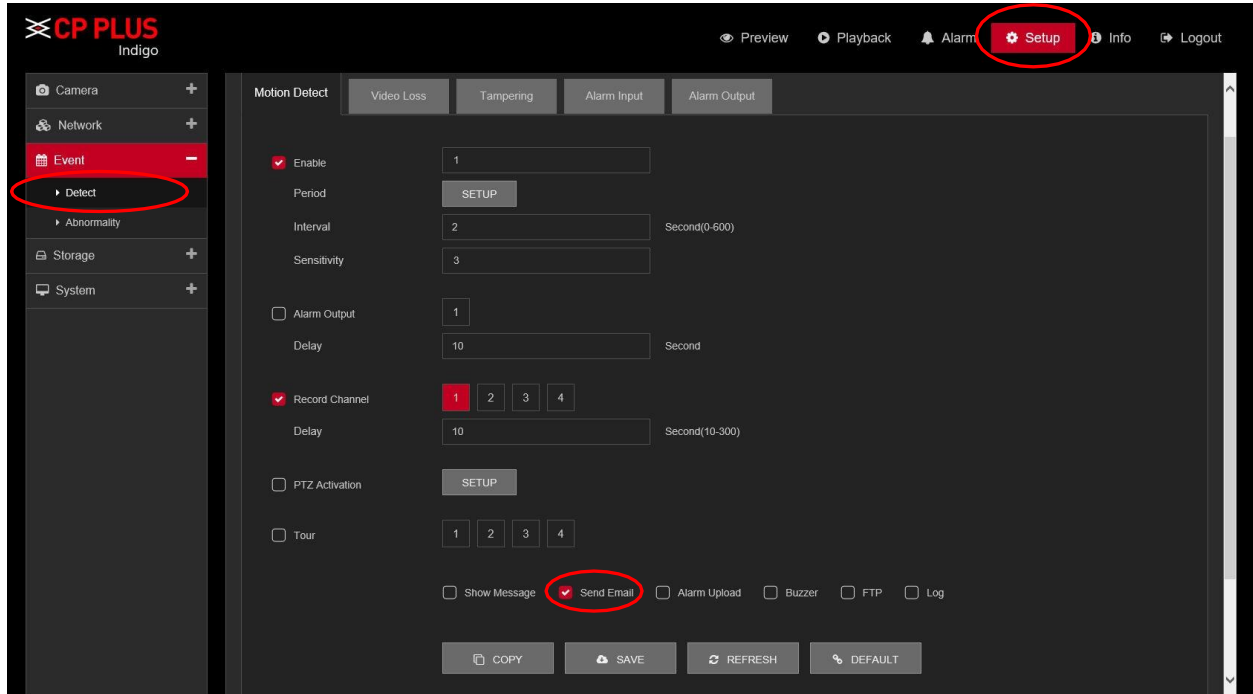

Figure 3

- Check mark the **Send Email** option to get the email notification on **Motion Detect** Event.
- Click on **Save** to Setup all Setting.

Thank You for Choosing CP Plus!
