## 4. Add Camera

• Open **ezykam+** app, click "+" on the top right corner of the "HOME" page, then select "Specific model to add".

• Make sure that the white LED indicator is blinking and voice prompt is audible.

• Enter your "Wi-Fi network and password", click "CONFIRM".

4.0 Add Camera

• Read the instruction about "Scan the camera QR code" and click "Continue".

• Scan the QR Code on your phone with camera. Heard a voice prompt, click "Heard the beep"

4.1 Add Camera

• When the indicator light on the device turn to steady white light, the network configuration is complete.

• Please refer to the specific APP interface if there are any difference.

Frequently Asked Questions

1. Can I share camera with family and friends?

Yes, you can share your cameras with family and friends who will have access to view the camera.

2. What's the Wireless Range?

The range of your home Wi-Fi is heavily dependent on your home router and the conditions of the room. Check with your router specifications for exact range data.

3. The camera appears offline or unreachable?

Make sure you entered the correct Wi-Fi password during the Wi-Fi setup. Check whether there is any Internet connection problem. If the Wi-Fi signal is too weak, reset your Wi-Fi router and try again.

4. Cannot connect to your Wi-Fi network.

Make sure you entered the correct Wi-Fi password during the Wi-Fi setup. Check whether there are any Internet connection problems. If the Wi-Fi signal is too weak, reset your Wi-Fi router and try again.

5. How many cameras can I control?

CP Plus app can control unlimited number of cameras in unlimited amount of locations. Your router may have a limit of how many cameras can be connected to one router.
