

## **CP PLUS introduces a range of Smart Wi-Fi Sensors for every need**

CP PLUS, as a brand, is dedicated to continuously offer more and more new and proficient solutions that cater to all the varied security requirements of millions of users across the country. Working to spread the sense of security to every corner of India, CP PLUS is an instigator for introducing new technologies to the Indian market. Being a well-trusted brand with quite a deep understanding and know-how of the security and surveillance needs of the rapidly changing time, CP PLUS stands un-rivaled when it comes to conceptualizing customized and best-suited solutions for the security troubles of corporates and public enterprises as well as educational institutes and entire smart cities.

Determined to enable you with smarter home security solutions, CP PLUS is a global leader that is devoted to keep bringing smarter and more reliable security solutions for you. Adding to the vast portfolio of reliable products, CP PLUS has now launched a series of Smart Wi-Fi Sensors. From doors to gas leak to smoke, CP PLUS has developed effective and efficient Sensors that detect door opening, gas leakage, and smoke in real-time and instantly notifies you of the same on your mobile phone. CP PLUS Smart Wi-Fi Sensors are a great way to make certain that your home and offices are absolutely secured against all the possible threats. Adding these Smart Sensors to your existing security system will provide you with the serene sense of security that you and your loved ones deserve.

We are focused on offering new and proficient solutions that cater to all the varied needs of millions of users, including a variety of wireless sensors and cameras, which are innovated to serve both Indian businesses and households by offering affordable and professional security at the same time. It has been noticed that Indian businesses are increasingly acknowledging the dependability of the surveillance and security solutions that CP PLUS provides.

There are many new and relevant technologies that we have developed recently and which are doing great in the market. The changed scenario has brought on changing demands and to meet them, we have launched those solutions which have immediately proven to be quite beneficial for the current time. By understanding the rapidly changing as well as challenging needs of the time, we come up with unparalleled products that are affordable and have been designed for sustainable use. Our innovation capabilities and the latest technologies coupled with value-added services show the difference.
